Introduction

In 1920 Granby was probably just as rural as it had been when it was first settled in 1680, but the census indicated that, for the first time, there were more US citizens in urban cities than in rural towns. Major industries had been established in nearby cities, like the Ensign-Bickford Fuse Factory in Simsbury, but Granby remained rural. As a mater of fact, William Scoville Case, in the *Memorial History of Hartford County* states "the distance from good water power as well as from railroad conveniences, render[s] the place undesirable for manufacturing purposes."

In fact, while Hartford County was the fastest growing county in Connecticut between 1910 and 1920, growing over 34 percent, Granby actually shrank from 1,383 to 1,342 residents

The history of Granby is well documented in *A Tempest in a Small Town, the Myth and Reality of Country Life, Granby Connecticut, 1680-1940* by Mark Williams. Granby was formed in 1786 from the Salmon Brook and Turkey Hills communities of Simsbury. In 1858, Turkey Hills became East Granby. Copies of Mark's book are available from the Salmon Brook Historical Society.

This book was begun as a project for the USGenWeb Census Project. It appears in text-only format, on their web page. During the transcription, attempts were made to use existing records to correctly transcribe the enumerator's handwriting. Not wanting to lose that information, this enhanced census was created. The original rules for the transcription dictated that what the enumerator wrote was transcribed, letter-for-letter, word-for-word, errors and all. That edict has been followed with the corrections appearing, with enhanced information, in the remarks.

Hartford County

The census bureau provides exhaustive analysis of their data for each and every city, county, and state. Table 53 on the next page shows the population changes for the first three censuses of the twentieth century. This table and other census studies are in the *Fourteenth Census of the United States Taken in the Year 1920, Volume I, Population 1920, Number and Distribution of Inhabitants*.

Census

The Constitution mandated the census and the Fourteenth decennial census was conducted, officially, on January 1, 1920. The enumerator had thirty days to complete the count. Newell W. Whitman was the enumerator for Granby, the 46th Enumeration District, but was not himself enumerated in Granby. The U.S. Population was 106.0 million. The microfilm of the Granby census is available at the US Archives and other sources on film #T625-181.

As a matter of interest, effective 1 October 1960, the Connecticut counties were abolished, their powers assumed by the state government. The county lines remain for certain reference purposes, such as county agricultural agents and federal census statistics.

A good source of information on the censuses is *Map Guide to the U. S. Federal Censuses, 1790, 1920*, by William Thorndale and William Dollarhide. The maps show clearly how the Hartford County-Massachusetts border changed over the years. Granby is located just below the current 'notch' in the border, which was finally relinquished to Connecticut in 1804.

Enhanced Remarks

Various sources were used to enhance the original census.

Burials in the Granby Center Cemetery (BGCC), by Carol Laun, is an award-winning book that has significantly more information that just the gravestone inscriptions. Carol has added additional family information from sources at the Salmon Brook Historical Society. Copies are available from the Society, address below.

Social Security Death Index (SSDI), available on-line and on CD from many sources. Many of the heads-of-household in this census were too old to have participated in Social Security, but many of their children did and can be identified here.

Connecticut Death Index 1949-1996 (CDI), available on-line at Ancestry.com, the Connecticut Department of Health; this is a subscription service, but occasionally they open all databases for free.

The *Hartford Courant*, online at their web site, provides an archive of all articles, not just obituaries, for a fee. The electronic archives go back to 1991. Earlier clippings are available from them by writing to: Ms. Cherryl Hatten, The Hartford Courant, 285 Broad Street, Hartford, CT 06115.

The Granby Vital Records and Land Records (GVR, GLR), were researched by Carol Laun. These records are available at the Granby City Hall to registered genealogists.

Sometimes we just picked up the phone and called the individuals, still alive and well, living in the same house in which they were enumerated in 1920.

The World War I draft registration cards are available for research at the National Archives in Atlanta, GA. For those of you who can't travel to Georgia, they have been microfilmed and are at the The Family History Library in Salt Lake City.

Some of these sources are more reliable for the researcher than others. Dates in the cemetery are usually reliable. The *Social Security Death Index* and

the *Connecticut Death Index* have many individuals with the same name and it would be advisable for a researcher to verify the information from those sources. The *Courant's* obituaries usually list the entire family making it easier to confirm the identity of the family. The Granby Vital Records and Land records are wonderful sources of additional data and have been especially helpful in finding correct, or 'modern' spelling of immigrant family names. Published family genealogies were also consulted for some of the older families in Granby.

When possible, the remarks also indicated if the individual was recorded in the 1900 and 1910 Granby censuses.

A researcher may want to visit the Salmon Brook Historical Society to go through their extensive holdings. The Salmon Brook Historical Society maintains the 1732 Abijah Rowe house, the 1790 Weed-Enders house, the 1870 Cooley School and the 1914 Hayes-Colton Tobacco Barn Museum, with many exhibits of 18th and 19th century life. The Society has a fine Research Library with information on Granby and local area history. The Genealogical Library has extensive files concerning Granby, East Granby, and Simsbury families. If your family came from the Granby area, the Salmon Brook Historical Society probably has some information on them.

It is not the intent of these enhanced remarks to be a primary source. The sources we used are considered primary documentation for the researcher. We suggest that these sources be consulted to confirm their relevance to the individuals enumerated.
